Welcome to the EPA's Enforcement and Compliance History Online (ECHO)

- ECHO provides fast, integrated searches of EPA and state data for 800,000+ regulated facilities.
- ECHO integrates inspection, violation, and enforcement for the Clean Water Act, Clean Air Act, and hazardous waste laws.
- ECHO has added Toxics Release Inventory data, National Emissions Inventory data, and Water Quality Data ([read more about new features](#)).

Mouse over areas below to:

- search for facilities,
- review state by state analytics and trends,
- or to review contextual reports and information.

Municipal Stormwater Permits

Under the NPDES storm water program, operators of storm sewer collection systems are required to develop a program to reduce the discharge of pollutants to waters of the United States.

Documents are provided below in the **Adobe PDF format**.

[Colorado Federal Facility Small MS4 General Permit](#)

[Annual Report Form for Regulated Small MS4s \(PDF\)](#)

NOI (Notice of Intent) Applications for Regulated Small MS4s: The applications for coverage under the Colorado Federal Facility Small MS4 General Permit contain the measurable goals defined by each of the facilities. While these measurable goals may change, the applications contain the baseline conditions under which each of the following facilities have been permitted. Comments may be provided to Greg Davis at the EPA Region 8 office regarding any of the following NOI applications at any time and will be addressed upon re-issuance of the Region 8 Small MS4 General Permit.
